PUSH ON NUMBERS 0.5SQ-1.5SQ - PKT 500

WC0ID1
Cable Markers Cab 3 (0.5-1.5) 0 Pk500

- Push-on design for fast and secure application
- Clear, high-contrast numbering for easy identification
- Durable material for long-lasting use
- Eliminates the need for adhesives or extra carriers
- Suitable for wires, panels, and harnesses

PRODUCT DESCRIPTION

The **Brady Push-On Numbers** provide a simple and efficient solution for cable and wire identification. Made from durable materials, these markers are designed to **slide directly onto the wire**, giving a secure fit without the need for adhesives or carriers.
Each marker features **bold, high-contrast numbering** for maximum readability, making them ideal for use in **electrical panels, control systems, and wiring harnesses**. The push-on design allows for **quick installation**, saving time during projects while maintaining a professional finish.

Engineered for **industrial, commercial, and utility applications**, Brady push-on numbers deliver reliability and clarity in even demanding environments.
