PRODUCT DESCRIPTION

The Brady **Push-On Letters & Symbols (1.5sq–2.5sq)** are the perfect solution for clear and secure cable identification. Designed for slightly larger conductors, these markers feature an **easy push-on design** that requires no adhesives or special tools. Each pack contains **200 durable markers** including **letters and symbols**, ensuring flexibility for various wiring and cabling applications. Ideal for use in control panels, industrial machinery, and electrical installations where legibility and long-lasting performance are essential.
