- Full range of letters & symbols included
- Quick push-on installation – no tools required
- Full range of letters & symbols included

PRODUCT DESCRIPTION

The **Push-On Letters & Symbols (4sq–6sq)** markers are a quick and reliable solution for identifying larger cables in industrial and commercial installations. Designed for **tool-free push-on fitting**, these markers slide securely onto the conductor without adhesives, staying in place even under vibration or heavy use. Each pack contains **200 markers with letters and symbols**, ensuring flexibility for a wide range of labelling applications. Manufactured from durable, non-conductive material, they provide long-lasting performance, resistance to wear, and high visibility for safe and organised cabling.
