PRODUCT DESCRIPTION

The **Partex Colour Coded Number Markers** provide a reliable and professional solution for identifying medium-sized cables. Designed for **cable sizes from 6sq to 10sq**, these markers feature bold black numbering on colour-coded backgrounds, ensuring clear visibility and quick recognition during installation and maintenance.

Supplied in a **pack of 100**, these markers are perfect for contractors, electricians, and panel builders who require dependable cable identification. Built to Partex's high standards, they are durable, resistant to wear, and guarantee long-lasting readability in demanding environments.
