- Durable material resists oil, heat, and abrasion
- Black on white print for maximum contrast
- Supplied on a roll of 500 markers

PRODUCT DESCRIPTION

The **Partex Black on White Oval Number Markers** deliver a reliable, professional solution for cable identification in control panels, switchgear, and industrial installations.
Made for **4sq–6sq cables**, these markers feature **bold black print on a bright white background** for maximum readability. The **oval profile** ensures a snug fit on the cable, preventing unwanted rotation while maintaining clear visibility.
Each roll contains **500 markers**, making them ideal for contractors and engineers managing medium to large projects. Resistant to **oil, heat, and abrasion**, these markers are built to perform in tough industrial conditions while maintaining long-lasting clarity.
