PRODUCT DESCRIPTION

The **Partex Black on White Number Markers** are designed for reliable cable identification in professional electrical installations. Suitable for **cable sizes from 2.5sq to 16sq**, these markers feature bold black numbers on a bright white background, ensuring excellent contrast and readability.

Supplied in **packs of 100**, they are perfect for medium to large cable sizes where durability and clear marking are essential. Manufactured to Partex's high-quality standards, these markers are resistant to wear and fading, providing long-lasting identification in demanding environments.
