CABLE TIE BASES & ACCESSORIES

DCTN19
Cable Tie Base 19mm x 19mm Black

- Versatile Mounting Options
- Temperature Resilience
- Compact Design
- Durable Material

PRODUCT DESCRIPTION

Nylon Cable Tie Bases are the ideal solution for clean and efficient cable management. Manufactured from tough, high-quality nylon, these bases provide a reliable anchor point for securing cable ties, ensuring that cables and wires remain neatly organized and protected.
Available with strong adhesive backing or pre-drilled screw holes, they offer flexible installation options to suit various surfaces and environments. Resistant to temperature changes, chemicals, and wear, our Nylon Cable Tie Bases are perfect for industrial, commercial, and automotive applications where performance and neatness are critical.

Choose from a range of sizes to match your cable tie width and installation needs. Whether you're tidying up a control panel, routing wires in a vehicle, or setting up an IT network, Nylon Cable Tie Bases help you achieve a professional finish with ease.
