

COLD SHRINK TUBES

End Caps

506700

FiloShrink Cold Shrink End Caps Range 11.6-20.9mm

- No Heat source required
- Can be used as primary insulation up to 1kv
- Remains flexible once applied

Product description

The Filoshrink Tube remains flexible, making them ideal for cable tray applications where room is limited, or there is likely to be movement of the cable soon after jointing.
