

PUNCH AND DIE

52055440SET

Speed Punch™ Set ISO 16 – 63 (16-63)

- Precision cutting – Clean, accurate, burr-free holes
- Durable construction – Hardened steel for extended tool life
- Wide size availability – Suitable for various knockout requirements

Product description

Greenlee punches and dies are engineered for precision hole cutting in electrical panels, switchgear, and enclosures. Built from **hardened steel**, they deliver clean, burr-free results and long-lasting durability for professional use.

Available in a range of sizes, these punches and dies are compatible with Greenlee drawstuds and knockout systems, making them ideal for electricians and contractors who need reliable tools for panel building and installation work.
