Product description

Greenlee complete punches and sets provide everything electricians and contractors need for fast, accurate hole punching in panels, switchgear, and enclosures. Each set includes high-quality punches, dies, and draw studs, engineered from **hardened steel** for durability and professional-grade performance.

Whether you're working with mild steel, stainless steel, or electrical enclosures, Greenlee knockout sets deliver **clean, burr-free holes** while saving time compared to drilling. Perfect for panel builders and on-site electrical installations.
