PRODUCT DESCRIPTION

Greenlee knockout sets and complete parts provide electricians and contractors with everything needed for clean, precise hole cutting in panels, switchgear, and enclosures. Available in complete kits or as replacement parts, they are designed to deliver long-lasting performance and professional results on-site.

From punches and dies to draw studs and spacers, Greenlee sets are built from hardened steel for durability and efficiency. Whether you need a full knockout kit or individual components, Greenlee ensures compatibility and reliability for every job.
