

SPEED PUNCH DRAWSTUDS AND SPEED LOCKS

52066001

Speed Punch Drawstud 16-25mm

- Quick-thread system – Faster setup and removal compared to standard studs
- Durable build – Hardened steel construction for long-lasting use
- Time-saving design – Reduces installation steps and job time

PRODUCT DESCRIPTION

Greenlee Speed Punch drawstuds and speed locks are designed to work with the **Greenlee Speed Punch system**, delivering faster, easier knockout operations. These components reduce setup time with a **quick-thread design**, allowing punches and dies to be secured or released in seconds without extra tools.

Built from durable, hardened steel, Speed Punch drawstuds and locks provide smooth operation, long service life, and compatibility with Greenlee knockout tools. Ideal for electricians and contractors who need to maximise productivity on-site.
