FAN CURRENT MONITOR 3 CHANNEL

FAN CURRENT
Fan current monitor - Part numbers coming soon, contact us for more information

- Only compatible with Flamefast LCD range
- Can be used with three phase fans
- IP65 rated
- Traffic light status indication for each channel

PRODUCT DESCRIPTION

Flamefast 3 channel current monitor can be used to provode a BS6173:2009 and IGEM/UP/19 compliant interlock when interfaced with any GasGuard system. By measuring absorbed power the fan current monitor can determine whether the fan is operating correctly.

The fan current monitor can be used to monitor up to three single phase fans or one three phase fan, and the common VFC output makes interfacing with GasGUard sustems simple.

Key features:

- Can be powered from any GasGuard
- Traffic light status indicatoin for each channel
- Can be used with three phase fans

Please refer to the datasheet under 'downloads' for part numbers and/or technical data, we are working on getting all part numbers and technical data on the website as soon as possible.
