

MIDWEST OPTICAL - STEP-UP / STEP-DOWN RINGS

F/SU22.5-25.5

Step-up 22,5-25.5 mm

- Step-Up and Step-Down rings
- Adapter Rings

Product description

Step-Up and Step-Down rings make it possible to use filters with dimensions other than the filter thread of the current optics. Step-Up rings are especially useful when you have short focal optics, and then you need a larger filter to avoid vignetting.

Specifications

Filter thread (thread diameter x pitch)	22.5-25.5
