GEORG FISCHER ACTUATED VALVES

199127002
Electrically actuated Ball Valve 127 PVC-U/EPDM d16DN10 100-230VAC With Manual Emergency overide With solvent cement sockets metric

- • Factory set control range 90°<
- Voltage 100-230V, 50-60Hz Pneumatic Control pressure supply through integrated NAMUR interface according VDI/VDE 3845 with 5.6 bar (81.2 psi)
- Integrated stainless steel mounting inserts
- Visual position indicator
- Individual configuration of the valve

PRODUCT DESCRIPTION

We can provide a large range of electrically and pneumatically actuated valves and actuated valve packages. These include:

- Electric actuated valves,
- Pneumatic actuated,
- Electric actuated brass ball valves,
- High pressure ball valves and many more...

We have a substantial range of electric actuated valves and pneumatic actuated valves.
