

JUNG HYGHSPIN HOPPER SERIES PUMP

Hygienic twin screw pump

JPS HYGHSPIN 70H

- Flow 100l/h to 30m³/h
- Pressure up to 25 bar
- Viscosity up to 50,000,000 cSt
- Temperature -10°C to +130°C (160°C)
- Max. particle size 45mm

Product description

The HYGHSPIN Hopper is an addition to the worldwide tried and tested HYGHSPIN series of Twin Screw Pumps made of stainless steel. The innovative twin screw pump with a funnel opening is capable of transporting products with viscosities of up to 1000 Pas. Its conveyor screws are extended so that they can induct non-flow capable products below the inlet funnel in a similar principle to an extruder and then feed them into the pump chamber. This ensures a particularly gentle handling - an external extruder can be completely dispensed with.

The HYGHSPIN Hopper therefore provides a very attractive 3-in-1 solution: Feeding, conveying and cleaning take place in only one component. It is available in block design or with free shaft end.

Specifications

Connection	Different sizes and connector standards by arrangement
Differential Pressure	20 bar
Flow max m³/h Double	10
Maximum diameter of solid material	20
Pump orientation	Horizontal, vertical or lateral
Temperature range from	-10
Temperature range to	180
Viscosity	0.5 - 1,000,000 mPas

Pumpstørrelse	A	B	C	D	E	F	G	H	Inlopp (Avdel)	vikt
70 Hopper	613mm	98mm	62mm	211mm	125mm	199mm	45mm	37mm	DN65 (DN100 0,5"-4")	70kg
90 Hopper	814mm	134mm	93mm	279mm	184mm	259mm	48mm	55mm	DN80 (DN150 1"-6")	135kg
120 Hopper	1015mm	160mm	114mm	324mm	244mm	304mm	53mm	65mm	DN100 (DN150 1,5"-8")	210kg
