

PANEL ENERGY METERS & CT'S VOLTMETERS

CST4-A95TXXXOFA0ST
Voltmeter Selector Switch

- kWh tracking over time
- Ideal for switchboards
- Current monitoring made easy
- Real-time voltage readout
- Accurate energy metering

PRODUCT DESCRIPTION

Sifam Tinsley Panel Meters

Sifam Tinsley's panel-mounted meters are built for precision, reliability, and ease of use—ideal for monitoring key electrical parameters in control panels, switchboards, and distribution boards.

This range includes:

- **Energy meters** for tracking real-time power usage
- **Voltmeters** for accurate voltage monitoring
- **Ammeters** for measuring current
- **kWh meters** for total energy consumption over time

Engineered for industrial and commercial use, these meters ensure you get the data you need to monitor performance, manage loads, and stay compliant.
