

KLAUKE CRIMPERS

K306K

Crimping Tool Ratchet Type 0.08-16sq

- 25–95 mm² ferrule range
- Twin-ferrule: 2×16 mm²
- Ergonomic 2-component handle
- Lightweight (~1.6 kg, 433 mm)
- Pre-clamp lever action

PRODUCT DESCRIPTION

Crimping Tool is engineered for professional-grade crimping of standard cable end sleeves (25–95 mm²) and twin cable end sleeves (2 × 16 mm²). Equipped with a pre-clamping lever and square-crimp profile, it enables high-compact, reliable connections into both push-in and screw-type terminal blocks. Ergonomic, lightweight design ensures consistent crimp quality—even in tight spaces. Compatible with interchangeable dies to cover complete wire range efficiently
