

INSULATED CRIMPS CRIMPER RED - BLUE - YELLOW

K507

3 in 1 Ratchet Crimping Tool

- Red, blue, and yellow crimp sizes
- Ensures strong mechanical and electrical connections
- Reduces hand fatigue during prolonged use
- Long service life for professional environments
- Quick matching to standard terminal colours

PRODUCT DESCRIPTION

This insulated crimps crimper is designed for precise crimping of red, blue, and yellow insulated terminals. Built for electricians, technicians, and installers, it delivers consistent compression for secure, long-lasting electrical connections.

The tool's ergonomic handle ensures comfortable operation during extended use, while the colour-coded jaws make it easy to match terminals to their correct crimp slot. Perfect for maintenance, panel building, and general wiring work.
