

EK50 MICRO MULTI-TOOL SETS

EK50ML

Klauke Micro Tool

- Crimp, cut, and punch with one tool
- Battery-powered for mobility and ease of use
- Quick tool-free changeovers between functions
- Reduces operator fatigue during extended use
- Consistent, precise results across applications

PRODUCT DESCRIPTION

The EK50 Micro Multi-Tool Set is a lightweight, battery-powered solution for crimping, cutting, and stripping electrical conductors with ease. Designed for portability and efficiency, it combines multiple functions into one compact tool, reducing the need to carry separate devices on-site.

Perfect for electricians, panel builders, and service engineers, the EK50 Micro delivers precision performance in tight spaces where larger tools can't reach. Each set includes interchangeable heads, rechargeable battery, charger, and storage case.
