

BATTERY POWERED FERRULE CRIMPER

ES32ML

Mini Hydraul Cut To 26mm Swa 32mm Pvc

- Work freely without power cords or manual effort
- Delivers uniform compression for wire ferrules
- Adapt to multiple ferrule sizes with ease

Product description

The Battery Powered Ferrule Crimper is a professional-grade cordless tool designed for efficient and precise crimping of wire ferrules. Combining mobility with powerful crimping performance, it eliminates manual strain while ensuring consistent, high-quality terminations.

Ideal for electricians, panel builders, and industrial technicians, this tool is compatible with a wide range of ferrule sizes. It features an ergonomic grip, quick-change dies, and long-lasting rechargeable batteries, making it a reliable solution for high-volume or on-site work.
