

## CABLE CUTTERS

ESM50CFB

50mm Cable Cutter 18v Bosch Battery

- High cutting force for large cables
- Designed for copper and aluminium conductors
- Reduces installation and maintenance time
- Long runtime and quick recharge

### PRODUCT DESCRIPTION

Battery powered hydraulic cutting tools combine cordless convenience with the power of hydraulics, making them ideal for cutting large-diameter copper and aluminium cables. Designed for professional electricians, utility workers, and industrial technicians, these tools deliver precise, high-force cuts quickly and safely.

With long-life rechargeable batteries, hardened steel blades, and ergonomic handling, they reduce effort while increasing efficiency on-site. Perfect for power distribution, substation work, and heavy electrical installations.
