DEFINOX - ACTUATORS AND CONTROL TOPS

DER-7150105
DPX Actuator, Air/Spring, 4"/DN100

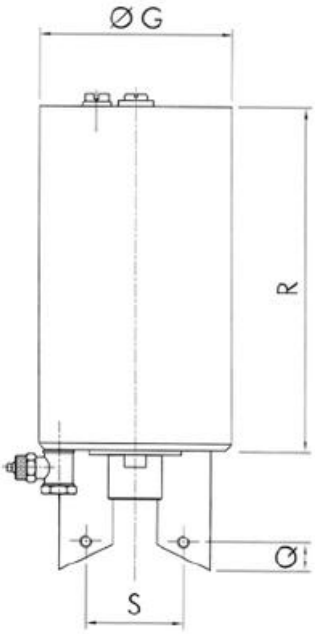

- For central monitoring of butterfly valves
- Real-Time Error Detection
- Minimizing production stops
- Easy to configure

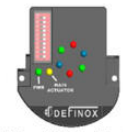

PRODUCT DESCRIPTION

Definox actuators and control tops are used for controlling valves:
Such as DPAX - DCX 3 - DCX 4 - NEOS - VEOX - PEAX - DMAX - DBAX.
Definox LED controllers let you monitor and remotely control the butterfly valves and provide real-time warnings for any error conditions so immediate action can be taken and production stops can be minimized.
The Definox LED Controller is easy to customize and the configurable device is user-friendly and offers a host of features.
Definox control tops are available as standard in LED with ICS / ACS but there are many possibilities for assembling the control tops.

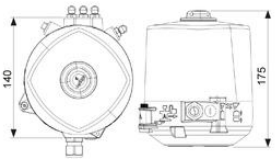

SPECIFICATIONS

Description	Gasket set NBR DER-7080009
Material quality	1.4301
Outer Diameter	114
Temperature range	0°C - 120°C
Weight	6.1
Working Pressure Max	7
