

## HONSBERG - FW1 SERIES FLOW SWITCH

### Piston

FW1-015GP006  
Flow switch.plastic 1-6 l/min,G1/2

- Switching Range 1..11 l/min H<sub>2</sub>O
- Water (Oil available on request)
- G $\frac{1}{4}$ " up to G1"
- Brass or POM Wetted Parts
- Max Pressure 10 bar

### PRODUCT DESCRIPTION

Mechanical flow switch, for fluid media, with spring-supported piston and magnetic triggering of a reed switch. Robust construction in brass and POM

### SPECIFICATIONS

Connection	Internal thread, G $\frac{1}{2}$ "
Contact Rating Max	0.5
Electrical Connection	M12x1, 4-pole
Flow Max l/min Double	20
Flow Range Max	6
Flow Range Min	1
Function	Flask, reed contact, ending
IP Class	IP67
Pressure drop	0.8 bar at maximum flow
Pressure Range Max	10
Temperature range of media to	90
Weight	0.05
Voltage AC max	230
