

AM CYLINDRICAL FUSE LINKS

441040

Fuse 14 * 51. 40a aM Pack 10

- Available in 8x32, 10x38, 14x51 and 22x58
- Most current ratings available with indicators
- Striker versions available
- High breaking capacity – Up to 80 kA

Product description

aM Cylindrical Fuse Links – High Inrush/Short-Circuit Protection

The aM class cylindrical fuse links are specially engineered for protecting motors, transformers and other loads that exhibit high inrush currents. These fuses deliver strong current-limiting capability, low I^2t values, and high breaking capacities — making them ideal for use in demanding industrial environments.

Specifications

4853_Size (mm)	14x51
Breaking Capacity	20
Country	ES
Frequency	42...62Hz
Indicator	No
Pack Size	10
Rated Current	40
Tariff code	85361010
Type	aM
Weight	4.1
Voltage AC / DC Max	400
