

## LP-CC LOW-PEAK® TIME DELAY CLASS CC FUSES

LP-CC-4-1-2

Eaton CC Slow B Fuse 4.5A

- Low-Peak® current-limiting technology
- Time-delay performance
- Up to 200kA interrupting rating
- Enhanced selective coordination
- Available from 1/2A to 30A

### PRODUCT DESCRIPTION

Eaton Bussmann LP-CC Low-Peak® Class CC Fuses combine time-delay performance with exceptional current-limiting protection. Designed for branch circuit protection, small motor circuits, and industrial control applications, they help improve selective coordination while reducing spare fuse inventory requirements.
