

## **FNQ-R TIME DELAY CLASS CC FUSES**

FNQ-R-1-1-2

CLASS CC TIME DELAY FUSE 1.5A

- Dual-element time-delay design
- 600Vac rated
- 200kA interrupting rating
- 12-second minimum delay at 200% rated current
- Ideal for motor and transformer circuits

### **PRODUCT DESCRIPTION**

Eaton Bussmann FNQ-R Time Delay Class CC Fuses are dual-element fuse links designed to withstand temporary motor and transformer inrush currents while providing reliable protection against overloads and short circuits. Their time-delay characteristic helps prevent nuisance operation while maintaining excellent current-limiting performance.
