

BUSBAR END COVER

01573
Busbar End Cover for 3 Pole Supports

- Enhanced safety – Prevents accidental contact with live busbar ends
- Durable construction – Resistant to heat, wear, and electrical stress
- Easy installation – Secure fit with Wöhner busbar systems

Product description

Wöhner Busbar End Covers

Wöhner busbar end covers are designed to provide a safe and reliable finish to open busbar systems. By insulating exposed busbar ends, they protect against accidental contact, ensuring compliance with electrical safety standards and reducing the risk of arc faults. Built with high-quality materials, these end covers are durable, easy to install, and compatible with Wöhner’s trusted busbar systems. Ideal for panel builders and switchgear applications, they help maintain safety without compromising accessibility.
