HEATSHRINK EARTH LENGHTS

IGY127
Heatshrink 12.7-4.0mm Green/Yellow 1.2 m

- Typically 2:1 for a snug fit on various conductor sizes
- Operating range from -55°C to +125°C
- Ready-to-use lengths save installation time
- Enhances electrical safety and reduces wear
- Meets key safety standards for industrial environments

PRODUCT DESCRIPTION

HEATSHRINK EARTH LENGTHS – GREEN/YELLOW

Heatshrink earth lengths provide reliable insulation and identification for earth conductors in electrical systems. The green/yellow colour meets industry standards for earthing, while the heatshrink tubing offers a secure, tight fit for long-lasting protection.

These lengths are pre-cut for convenience, making them ideal for quick installation in maintenance, repairs, or new projects.
