DOUBLE DECK TERMINALS - PRKD/PSLD 2.5 - 4MM²

PRKD, PSLD

27036.6
Terminal Block PRKD2.5 2.5sq Double Deck Grey,Push In

- Push In technology
- Linked options
- Colour marked versions
- 1 in 2 out 4mm² version
- Earth variants

PRODUCT DESCRIPTION

The compact and innovative connectors ensure high current carrying capacity, a pull-resistant connection and a very stable fixing to the DIN rail. PRKD and PSLD connectors are 2-layer connectors for a nominal wire size of 2.5mm². The PRKD connectors are either at different potentials or at one potential, the black colour at the top of the connector visually distinguishes the connector at one potential. Visual attention is also available for N and PE terminals, where the area surrounding the terminal is coloured blue or yellow-green respectively. PSLD connectors are always at the same potential and coloured yellow-green, these can be grounded to the DIN rail. Also the PRKD connector, where the lower level is a protective earth, is grounded to the rail according to the standards.

SPECIFICATIONS

Cross-Section	25
Color	Grey
Rated Voltage IEC	500
Rated Current IEC	22
Rated impulse voltage	6
Overvoltage category	III
Contamination degree	3

Length	687
Width	51
Height TS 35/7.5	472
Height	457

Connections	2 x 2
Number of levels	2
Plug gauge acc. EN 60 947-1	A3

Cross connect channels	2
Cross section single wire from	14
Cross section single wire to	4
Cross section stranded wire from	14
Cross section stranded wire to	25
Cross section stranded with ferrule from	14
Cross section stranded with ferrule to	25
Rated wire cross section from	26
Rated wire cross section to	12
Stripping Length	10

Flamklass	UL94-V0
Operating temperature from	-40
Operating temperature to	120

Tariff code	85369010
Country of origin	CZ
Weight	1031
Pack Size	50

Number of terminals per level	2
