THERMOELECTRIC DEHUMIDIFIERS

3039303
Dehumidifier 24V DC without condensate pump

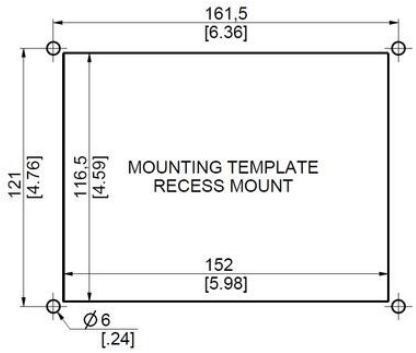

- Effective Moisture Removal – Helps reduce humidity and condensation inside electrical enclosures.
- Maintenance-Free Operation – Designed for reliable, low-maintenance moisture management.
- Indoor and Outdoor Use – Suitable for a range of industrial enclosure applications.
- Flexible Installation – Supports recessed, DIN rail and enclosure-floor mounting, with optional wall mounting.
- Optional Condensate Pump – An integrated pump is available on selected models to simplify condensate management.

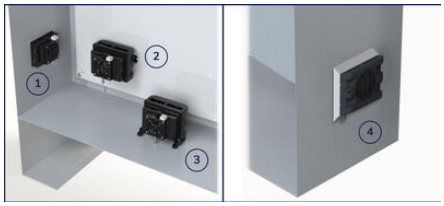

PRODUCT DESCRIPTION

Seifert Systems SOLIFLEX thermoelectric dehumidifiers are designed to remove excess moisture from electrical enclosures and control cabinets, helping prevent condensation and protect sensitive electrical and electronic components. Suitable for indoor and outdoor applications, these maintenance-free units provide reliable humidity control in industrial environments. With flexible mounting options and an optional integrated condensate pump, they offer a practical solution for managing moisture in electrical enclosures.

SPECIFICATIONS

Approvals	CE
Color House	Black/grey
Dimensions	AxBxC (DxE)176x136x(72+61)
Effect	50
IP Class Housing	IP56
Max current	24
Nominal current	21
Power Max	58
Starting Current	31
Supply voltage	24
Temperature range from	0
Temperature range to	65
Weight	18
