

ACTI9 IC60H RCBOs

A9D31806

Acti9iC60H 6A B 30mA RCBO 1 mod

- Overcurrent + residual current in one unit
- 10kA for demanding environments
- Meets IEC/EN 61009-1 requirements
- Long service life in industrial and commercial use

PRODUCT DESCRIPTION

The Schneider Electric Acti9 IC60H RCBO range combines residual current protection (RCD) with overcurrent protection (MCB) in a single device. Designed for professional-grade electrical installations, these breakers offer a high breaking capacity of 10kA, making them suitable for commercial, industrial, and high-demand residential environments.

Engineered with the Acti9 series' reliability and safety features, the IC60H RCBOs provide clear visual indication, robust construction, and consistent performance, ensuring total circuit protection with minimal space requirements.
